

# Human well-being

	Australia	Vietnam	Zimbabwe
GNI per capita	54,364	1,658	818
Birth Rate (per 1,000)	13	17	33
Death Rate (per 1,000)	7	6	8
Mortality rate - children under age of 5	4	22	56
Life expectancy	85	81	63

Data taken from [data.worldbank.org](http://data.worldbank.org).

Use the data from the table above, and your own knowledge to suggest answers to the following questions.

1. What is meant by GNI per capita of a country?
2. Define Birth rate and Death rate.
3. Using the table above, which country is the least developed?
4. Explain the correlation between GNI per capita and the mortality rate of children under 5.
5. Do any of the figures on the table shock or surprise you? Why/why not?
6. Use the Worldbank website to investigate other indicators of development for any countries of your choice.
