

GAWA Professional Learning # 5: *The Digital Future of Geography*

This professional learning opportunity will guide you through simple data collection methods using free Geographic Information System (GIS) technology available to all schools through Esri Australia's GIS for Schools Program.

We will guide you through everything you need to know to integrate GIS into your next fieldwork. This includes an exploration of the *new user-friendly ArcGIS Online platform* that can create maps using your own primary data or readily available secondary data.

Note: This is PL for GIS beginners.

Details

Date: 29th October 2018
